#### Pour les Jobs on peut les voir sur le PowerPoint sur Veeam.

## 2/ En cas d'erreurs

-Vérifier bien que les différentes consoles VEEAM ont les mêmes versions de logiciel.

-Le service « Veeam transport » doit être impérativement installé pour pouvoir transférer des VM sur le réseau.

- Si il y a un problème au niveau de l'installation due à la base donnée, supprimer la BDD MySQL de Veeam et recommencer l'installation.
