

# Scrumtool : Gestion de projet de type SCRUM

## Gestion des projets

### 1- Fonctionnalités

Acteur : Administrateur

### 2- Vues

The screenshot shows a user interface for adding a new project. It features a blue-themed window titled 'Add product'. Inside, there is a label 'Project name :' followed by a text input field containing 'Exemple : My Project'. Below this is a label 'Description :' followed by a large, empty text area. At the bottom center, there is a button with a green plus icon and the text 'Add this project'.

```

view.getBtnProducts().addSelectionListener(new SelectionListener() {

    @Override
    public void widgetSelected(SelectionEvent arg0) {
        if (view.getBtnProducts().getText() == "Add this project") {
            if (view.getTxtNameProject().getText().equals("") ||
view.getTxtDescriptionProduct().getText().equals("")) {
                Utils.MsgBox(view.getShell(), "Please complete all fields",
"information");
            } else {

                boolean nomUtilise = false;
                for (Product product : DAO.getProducts()) {
                    if
(product.getName().equals(view.getTxtNameProject().getText())) {
                        nomUtilise = true;
                    }
                }
                if (nomUtilise == true) {
                    Utils.MsgBox(view.getShell(), "A project already has
this name", "information");
                } else {
                    Product product = new
Product(view.getTxtNameProject().getText(),
view.getTxtDescriptionProduct().getText(), null, null, null);
                    DAO.SQLProduct(product, "insert");
                    view.getTableViewerProducts().add(product);
                    Utils.MsgBox(view.getShell(), "Project is create",
"information");
                }
            }
        }
    }
});

```

```
        }  
    } else {  
  
        // Code update product  
  
    }  
}  
  
});
```

### 3.2 Cproducts - Edit Product

```
view.getBtnProducts().addSelectionListener(new SelectionListener() {  
  
    @Override  
    public void widgetSelected(SelectionEvent arg0) {  
        if (view.getBtnProducts().getText() == "Add this project") {  
            if (view.getTxtNameProject().getText().equals("") ||  
view.getTxtDescriptionProduct().getText().equals("")) {  
                Utils.MsgBox(view.getShell(), "Please complete all fields",  
"information");  
            } else {  
  
                boolean nomUtilise = false;  
                for (Product product : DAO.getProducts()) {  
                    if  
(product.getName().equals(view.getTxtNameProject().getText())) {
```

```
        nomUtilise = true;
    }
}
if (nomUtilise == true) {
    Utils.MsgBox(view.getShell(), "A project already has
this name", "information");
} else {
    Product product = new
Product(view.getTxtNameProject().getText(),
view.getTxtDescriptionProduct().getText(), null, null, null);
    DAO.SQLProduct(product, "insert");
    view.getTableViewerProducts().add(product);
    Utils.MsgBox(view.getShell(), "Project is create",
"information");
}
}
} else {

    // Code update product

}
}

});
```
